COLORANTS

Manufacturer and Supplier of Dyes, Pigments, and Colorants

CHROMATECH is a USA and EU based manufacturer and supplier which offers specialized liquid dyes and water-based pigment dispersions for a variety of products and industries. Our synthetic dyes and organic pigment dispersions are commonly used in soap and detergents, car wash soap, car care products, ponds, turf paint, water tracing, A/C leak detection, oil leak detection, water leak detection, antifreeze, coolant, metal-working fluid, de-icing material, fertilizer, treated seed, pesticide, latex, non-woven material, and lumber marking. We also offer food, drug, and cosmetic colorants for the US market.

Chromatech Europe

- High performance liquid dyes which have superior light, heat and pH stability
- Also available for water based adhesives: Colorants which function as liquid dyes and are non-staining to skin, most fabrics and non-porous surfaces
- UV fluorescent detection dyes available for adhesives

We Create Color Solutions!

Chromatech warrants that products conform to their specifications. No other warranty is expressed or implied. This does not release the user from the obligation to test the suitability of the products and formulas for the intended process and applications. Chromatech shall not be liable for incidental or consequential damages.

Adhesive Colorants

D11013X Chromatint® Yellow 0963 Liquid
Excellent light stability.

D11006 Chromatint® Uranine HS Liquid
Fluorescent yellow.
Europe: D11014 Chromatint Uranine Conc

D96183 Chromatint® Green 1568 Liquid
Fluorescent green, pH 7 to 13 stability.
pH > 7 to fluoresce. Good light stability.

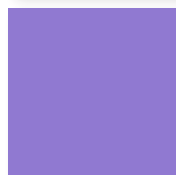

M93010X Chromatint® Red 0551 Liquid
Fluorescent red.

D93292 Chromatint® Red 2006 Liquid
High heat and pH stable.

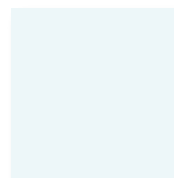

D35003X Chromatint® Blue 0408 Liquid
Excellent light stability.

D94050 Chromatint® Violet 1897 Liquid
Excellent light stability.

1-800-545-5075 +31(0)174 272299 (Europe)

M09065A Chromatint® Fluorescent Tracer 0556 Liquid
Fluorescent tracer.
Brilliant fluorescent blue under black light.
Wide pH stability.

Water-Based Resinless Pigment Dispersions For Adhesives

P91016 Chromatint® Yellow 3116 Dispersion
Water-Based Resinless
PY14 Dispersion.

P33000 Chromatint® Red 3208 Dispersion
Water-Based Resinless PR170 Dispersion.

P95015 Chromatint® Blue 3115 Dispersion
Water-Based Resinless PB15:3
Dispersion.

P96014 Chromatint® Green 3114 Dispersion
Water-Based Resinless
PG7 Dispersion.

Chromatech Incorporated offers a broad selection of dyes which are widely used for water-based adhesives.

The dyes featured have: • Excellent solubility • Vibrant color
Inquire for colorants in solvent systems.

Call to inquire on fluorescent brighteners which are excited by black light but are colorless in daylight.

Inquire for colorants which meet 21 CFR 175.105.
